Full stack developer building production-ready web applications with **React, TypeScript and ASP.NET Core**. Designed and built **HookahPOS**, a complete point-of-sale system for hospitality venues, covering everything from the PostgreSQL schema to the touch-screen UI and Windows installer. I use AI coding assistants (Claude Code) every day, while owning the architecture, business logic and code quality myself.

PROJECTS

HookahPOS — point-of-sale system for hookah lounges — 2026

Personal commercial project · sole developer

React 19 · TypeScript · ASP.NET Core 10 · EF Core · PostgreSQL 17 · JWT

- Built a full POS covering **floor plan, orders, payments, inventory, staff and analytics** (~12k lines of code, 15 REST API controllers).
- Designed **transactional stock accounting** with a movement log, and **immutable order snapshots** so menu changes never alter past bills.
- Implemented bill splitting, discounts and voids on part of a quantity, with **all totals calculated on the server**.
- Implemented **PIN login with JWT**, role checks on the server and instant session revocation through token versioning.
- Handled business-day reporting (06:00 cutoff, UTC storage, daylight-saving edge cases).
- Wrote **286 automated API test scenarios** that run against an isolated test database.
- Shipped as a **self-contained Windows installer**, with the UI in Polish, English and Russian, optimized for 1920×1080 touch terminals and phones.

EXPERIENCE

Frontend Junior — 05/2024 – 07/2024

EPAM · Gdańsk

- Designed and built a website end to end, from the visual design and layouts to front-end markup integrated with the back end.
- Created responsive layouts for phone, tablet and desktop, and kept them consistent across browsers.
- Worked in an agile team toward sprint goals, and suggested workflow improvements that reduced rework.

Practice Placement Worker — 09/2024 – 11/2024

Amber Expo · Gdańsk

- Coordinated student placements: orientation sessions, regular meetings with supervisors, support for students facing difficulties.

EDUCATION

WSB University, Gdańsk — 10/2025 – present

Bachelor's degree, Management

ZSE Technical College, Gdańsk — 03/2022 – 06/2025

IT Technician
